

# PEA305

# Analytical Skills I

---

## Lecture #0

### Breaking the ice

# Course Details

---

- LTP - 2 1 0 [Two lectures, One Tutorial per week]
- **Text Book**
  - ✓ Quantitative Aptitude by Dr.R S Aggarwal
- **Reference Book**
  - ✓ Quantitative Aptitude by M Tyra
  - ✓ Quantitative Aptitude by Abhijit Guha

# Course Assessment Model

---

## Marks break up

• Attendance	15
• CA	30
• MTE (MCQ)	15
• ETE (MCQ)	40
• <b>Total</b>	<hr/> <b>100</b>

- MTE & ETE to be done on OMR sheets
- All tests will be based on MCQ.

# Course Outcomes

---

CO1 :: demonstrate procedural fluency with number system and mathematical operations to solve the stated problems.

CO2 :: select an appropriate approach to solve problems related to percentage, profit and loss.

CO3 :: observe the data given and interpret given number and alphanumeric series

CO4 :: apply the analytical concepts learnt to solve the questions of ratio and proportion

CO5 :: use the concepts of permutation, combination and probability to handle various problems.

CO6 :: analyze the reasoning aptitude problems such as blood relation and direction sense to solve related problems.

## Course focus identification

- Employability

# Assessment and Evaluation Model

Assessment (Category)	Conducted Week
CA 1 (A0203)	Week 5 (Duration 50 Min Q 30)
MTE (11A)	After week 7 (Duration 60 Minutes Q 40)
CA 2 (A0203)	Week 10 (Duration 50 Min Q 30)
CA 3 (A0203)	Week 14 (Duration 50 Min Q 30)
ETE (11A)	After week 14 (Duration 120 Min Q 80)

## Pedagogical initiative

Week	Workshops
3 <sup>rd</sup>	Number ninja
4 <sup>th</sup>	Perocity
11 <sup>th</sup>	Puzzle Mania

Week	Competitive event
6th	Semantic analogy
7th	Mind opener
14th	Knack

**Foundation classes- Week 7<sup>th</sup> and 14<sup>th</sup>**

# Innovative evaluation strategies

Evaluation	Conduct
CA 1	External
MTE	External
CA 2	External
CA 3	External
ETE	External

# Unit wise course content

## Unit I

**Number system** : HCF & LCM, divisibility rules, classification of numbers, factors, factorials, unit digit calculation, remainder properties

**Simplification and approximation** : BODMAS rule, calculation and approximation based on percentage, problem based on digit sum

**Average** : basic average calculations, average increase and decrease, weighted average

## Unit II

**Percentage** : basic percentage calculations, percentage to fraction, percentage comparison, percentage increase and decrease, population change in percentage

**Profit loss discount** : basic concepts of cost price selling price and marked price, calculations of profit and loss percentage, types of discount and discount percentages, comparison of profit or loss with discount percentage

**Simple and compound interest** : basic concepts of interest calculations, comparison of simple and compound interest

## Unit III

**Logical reasoning** : number series with introduction of AP and GP, alphabet series, alphabet test, coding and decoding, language coding

## Unit IV

**Ratio and proportions** : basic concepts of ratio and proportions and ages, problems based on ratio and proportions and ages, problems based on partnerships and profit sharing

**Alligation and mixtures** : conceptual knowledge of alligation and mixtures, problems based on alligation and mixtures

## Unit V

**Permutation** : basic principle of counting, numerical permutation(formation of numbers and sum of numbers), alpha permutation(rearrangement of words and rank of a word), linear and circular permutation, logical permutation

**Combination** : basic formulas of combination, formation of committee, combination of identical objects

**Probability** : concept of probability, classification of events, conditional probability, problems based on coins dices and cards

## Unit VI

**Analytical reasoning** : blood relations, direction sense test

# Let us look around...

---

Why every organization takes Quantitative Aptitude Tests before hiring any future employee...

# Right Decision Making

---

- Mental Alertness
- Ability to quickly interpret data
- Establish logical relationship
- Arrive at the correct conclusions
- Make the right judgment

---

Organizations recruit  
people who have  
*Quick Mental  
Abilities.*

---

How you will make your  
mental ability Quick...!!!

*Quick = Tricks*

---

$123456^{654321}$

Find the unit digit

---

And What about this....?

In how many ways the  
committee of 5 members be  
formed out of 7?

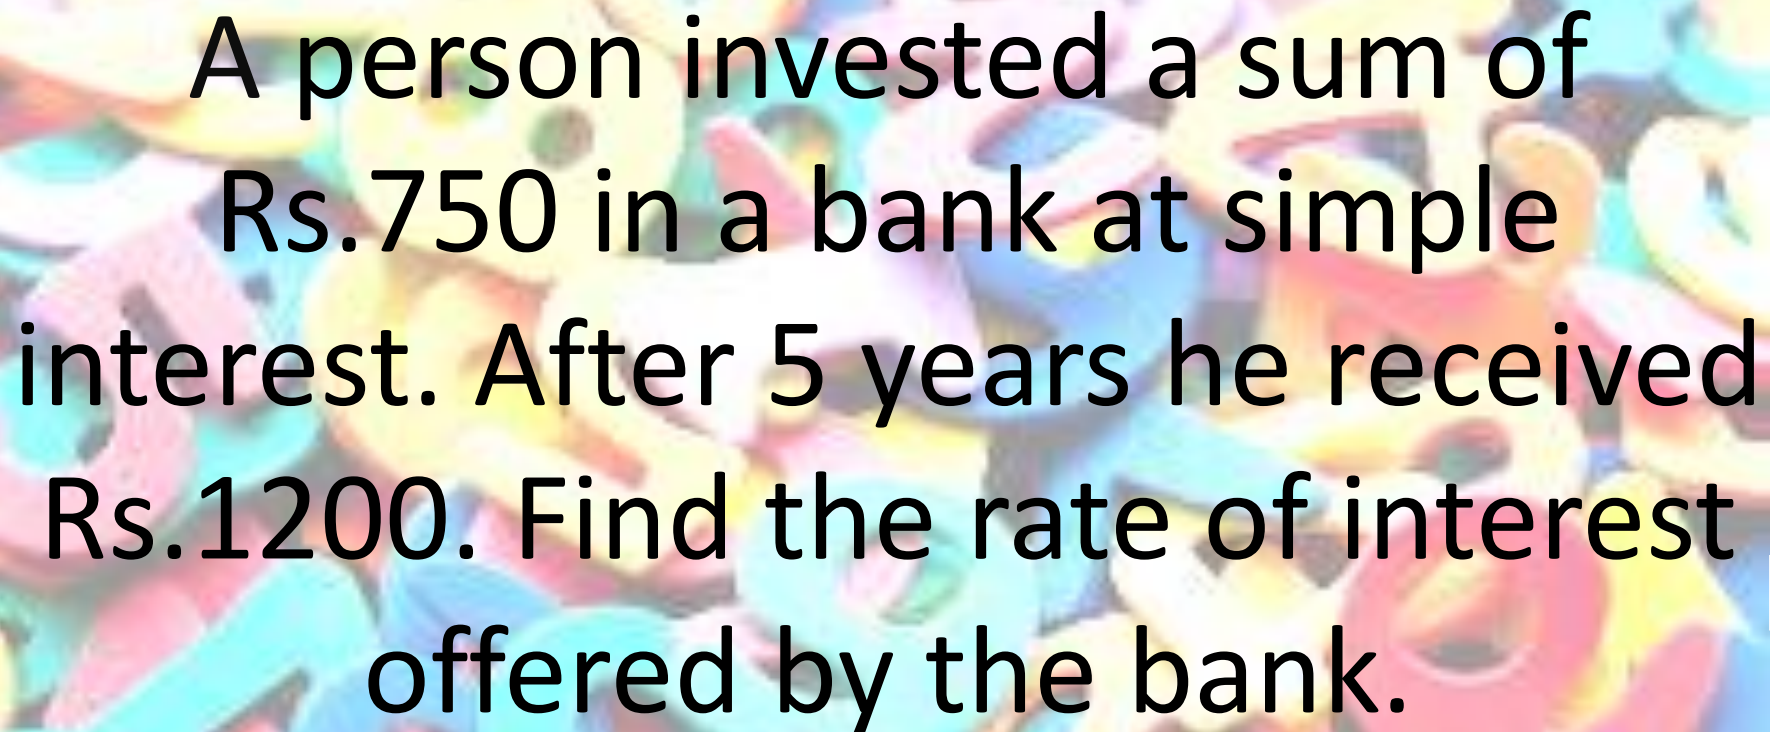

- 
- ✓ 5 minute...???
  - ✓ 10 minutes...???
  - ✓ 15 minutes...???
  - ✓ 20 minutes...???

Again...!!! It will not take more than  
**30 SECONDS.**

## What do we need to know?

---

A person invested a sum of Rs.750 in a bank at simple interest. After 5 years he received Rs.1200. Find the rate of interest offered by the bank.

# What do we need to know?

---

This course PEA305 : Analytical Skills-I

- Ability to efficiently solve the company specific Quantitative Aptitude Tests.
- Ability to prioritize and manage Time.
- Ability to efficiently analyze data.

***Lets Get  
Started!***

---

Next Class: Number System
